HEALTHCARE

INTERACTIVE DIGITAL SIGNAGE

Version 06.20

About youRhere

From our beginnings in Calgary and Toronto more than 20 years ago, we now have installations coast to coast and are expanding internationally. youRhere has become the leader in interactive digital signage in Canada by offering full end-to-end systems integration and focusing on customer service. Our interactive solutions provide unique opportunities to connect with your visitors and tenants.

We Offer Full End-to-End Systems Integration

We will help you through the entire process of crafting your solution, from choosing your enclosure and hardware, to designing your software, to delivery and installation. Then, post installation, we provide full service and support for the life of the installation, from managing your content changes to providing full remote and on-site support.

So let's get started!

Choose Your Hardware

These are our Standard Models which are our most popular and cost-effective digital signage solutions. All Standard units, unless otherwise noted, come with a 42" commercial grade touch screen monitor, a mini PC with eco-friendly nightly shutdown and a stainless steel finish.

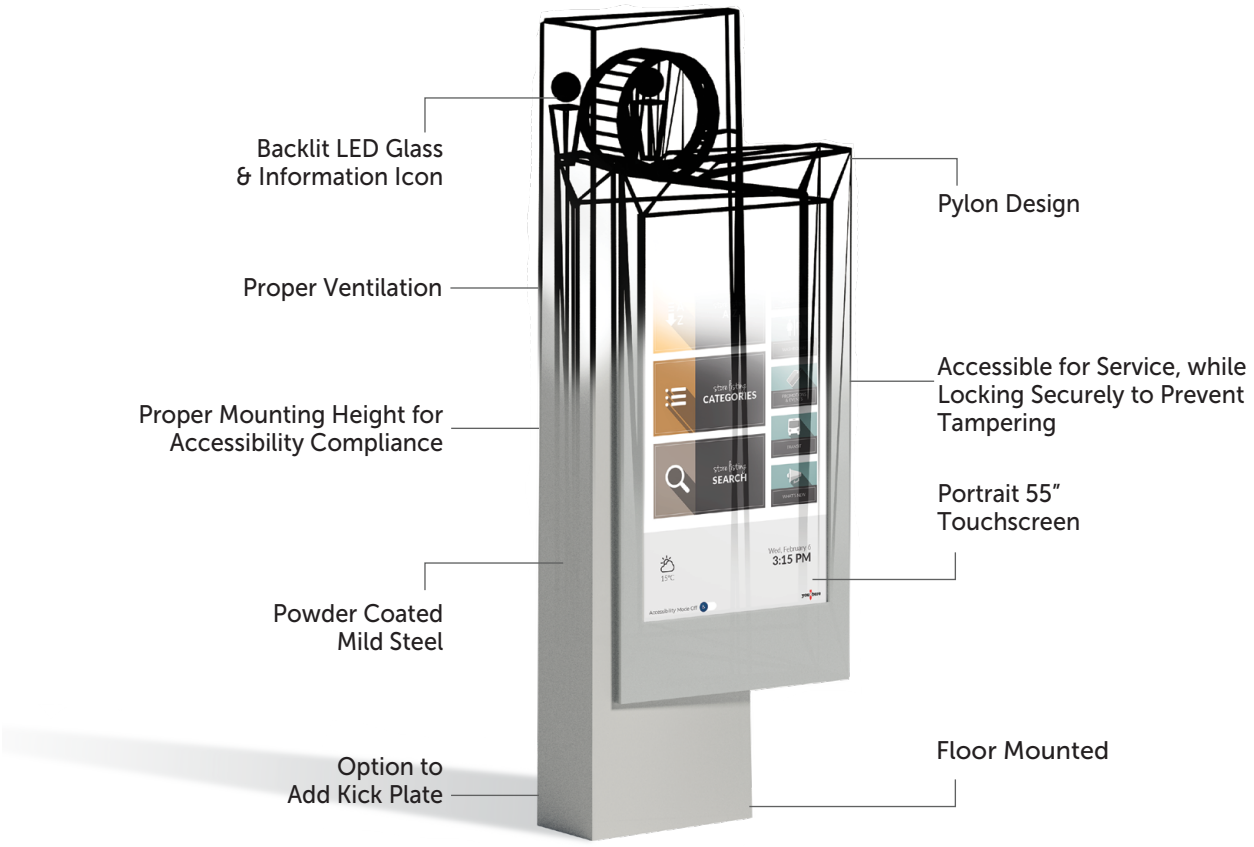
Or Build a Custom Design

Our custom digital signage brings your brand and vision to life. We can create variations on our standard models or create completely new enclosure designs. Our design team creates innovative yet functional solutions able to incorporate a variety of screen sizes, custom colours, lettering and finishes.



Customization Options

- Screen Size
- Enclosure Design
- Finish Material
- LED Lettering & Icons
- Touchscreen Type
- Enclosure Format
- Custom Colours
- Singular or Double Sided

Retrofits & Existing Enclosures

We can work with your existing enclosures to create an updated design and retrofit new and improved hardware. Turn outdated or static directories into interactive or passive digital content.

Add Software Functionality

Custom branded interface design

Screensavers:
When the screens are idle, rotating images or videos display
Media can be uploaded and scheduled on our CMS

Current Date & Time

Current Weather & Forecast

We Deliver, Install & Train

Our team takes care of the delivery, installation and provides you with the training you'll need to manage your units.

One Easy-to-Use Management Platform

You'll receive full access to our Content Management System (CMS) which allows timely changes and control multiple media steams from one easy-to-use platform. Update tenant information, logos, events and important information as often as required.

You Analyze

You'll also have access to user data from your units.
Visualize traffic trends and amenity usage to drive informed decisions on security, maintenance and leasing.

You Select a Support Plan

Gold

Our premium, all-in plan where we manage, service and support your units, while providing extended hardware warranties and the lowest rates on any additional services required.

Silver

Our most popular plan which allows you to update and manage your units with regular assistance and support from our professionals.

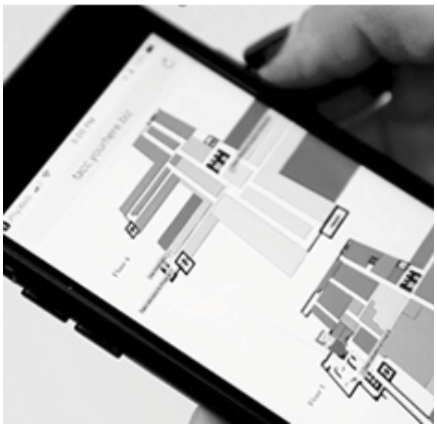
Bronze

Our most cost-effective plan that gives you the tools to mange and update your units with our service and support when needed.

We Service & Support

Our remote or onsite Service & Support team is available to help. If you're upgrading technology or hardware, updating content or simply have a question, we're there to assist & ensure your units are working smoothly.

Additional Solutions



Tap 'n Go Mobile

Our patented Tap 'n Go mobile feature allows visitors to easily transfer directions and search results directly to their mobile phones without the need to download a mobile app.

Text-to-Voice

Our text-to-voice functionality allows the visually impaired to navigate your facility, locate amenities and recieve important messaging through audio jack voice prompts.

Donor & Recognition Walls

These solutions effectively highlight and provide digital recognition to donors, as well as keep donation organized and searchable.
